EDUCATION

The University of Texas – Coding Bootcamp – *Certificate*; Houston, TX September 2019 – March 2020

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js & React

The University of Houston – *Digital Media*; Houston, TX August 2018 – Present

EXPERIENCE

WeFluents – *Full Stack Web Developer Intern*; Houston, TX May 2020 - Present

- Implement knowledge of WordPress to client projects with praise for design by CEO and CTO
- Coordinate with the CTO in building websites with React, Next.js and Node.js
- Appointed as project leader and directed co-workers to specific tasks to establish efficient workflow

Sharetea – *Shift Leader*; Katy, TX August 2018 – April 2020

- Calculated daily cash audits of over \$300 and distributed tip money to 3-4 other team members on shift
- Advised new team members with positive reinforcement and respectful, encouraging coaching
- Addressed any issues regarding store machines, employees and counted inventory of over 30 products

PROJECTS

Nook Central – *Full Stack Project* April 2020 – July 2020

<https://github.com/antphan98/nook-central> | <https://nook-central.herokuapp.com/>

- Established user login feature and Firestore database to store saved user collections
- Utilized React, Next.js, and Semantic UI to build out front end while using Node.js persisting user data to Firebase and Firestore on the back end

Passport Mobile – *Full Stack Project* February 2020 — March 2020

<https://github.com/aw-exe/mobilePassport>

- Implemented mobile application using Expo.io and designed UI with React Native Elements
- Structured application with React Native and Redux while storing user authentication and trip budgets with Firebase and Firestore

Paw Pals – *Front End Project* January 2020

<https://github.com/edenhack/project2> | <https://warm-dusk-35598.herokuapp.com/>

- Created front end using HTML, CSS and Bulma to establish a clean and user-friendly design
- Integrated Google Maps API to establish mock locations pinned on map across the Houston area via zip code
